

洗衣粉生产线

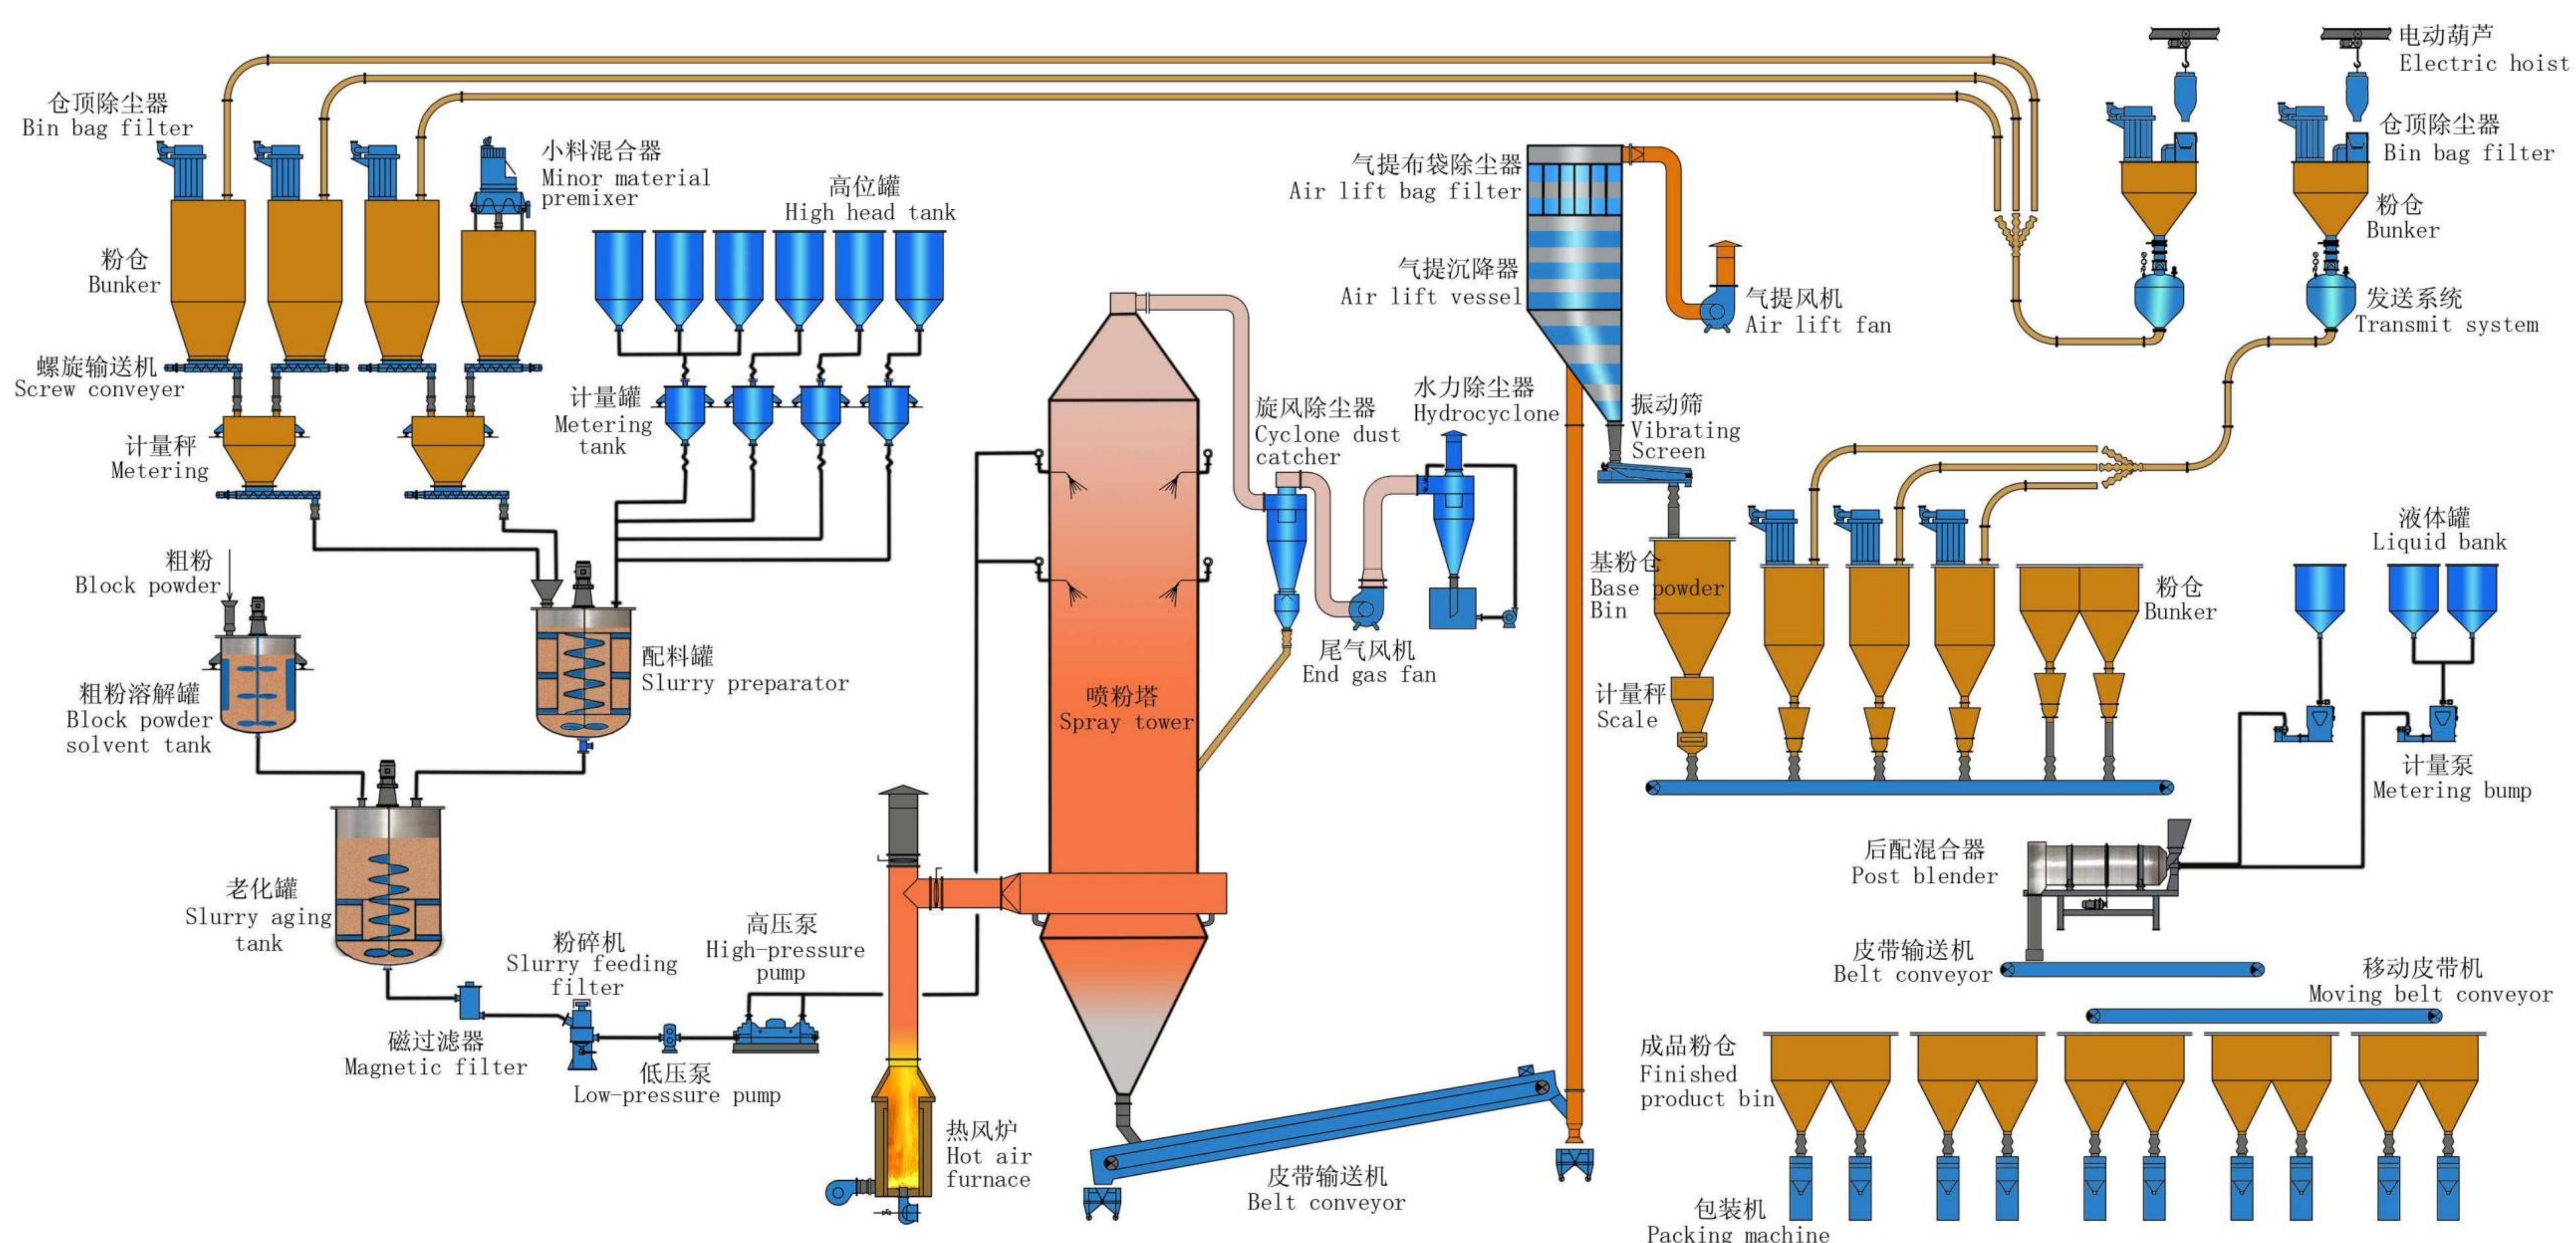

DETERGENT POWDER PRODUCTION LINE

采用目前国际先进成熟的高塔喷雾工艺技术，有良好的经济、环保效益，污水零排放。过程配置从简单人工操作到计算机中央集中自动化控制。可根据用户需要提供年产量5000~250000吨洗衣粉成套生产线的工艺设计、设备供货、安装、调试及培训；承接技术咨询和老线改造工程技术服务。

Adopt current international advanced mature spray tower technology, with good economic and environmental benefits, zero discharge of sewage. Process configuration is varied from simple manual operation to computer centralized automation control. According to user's requirements, we can provide process design, equipment supply, installation, commissioning and training of 5000~250000 tons p.a. of washing powder production line; we also undertake technical consultation and engineering service of old line transformation.
